APXboard™ laminated paperboard is made of multiple plies of recycled paper formed into a rigid right angle. Ideal for unitization and edge protection, APXboard provides superior strength for stacking and load stability. Reducing the weight of overall packaging materials, it is more cost effective than other edge protection products.

**Applications**
- Produce
- Snack food
- Printing
- Paper manufacturing
- Metals

**Specifications**
APXboard sizes are based on the following dimensions*:

- **Leg length**—Available from 2-2.5 inches (50.8 mm - 63.5 mm)
- **Caliper**—Available from .060 - .500 inches (3.5 mm - 4.0 mm)

---

**100% Recyclable**
Angleboard products are made from 100% recycled materials.
