Qwik-Crate™
The simple, low cost solution to product protection

www.reddipac.com
Qwik-Crate™ laminated paperboard packaging provides superior beam strength and crush resistance for maximum product protection. Ideal for longer packaging applications, Qwik-Crate’s patented fold-over design eliminates the need for separate end caps and provides end protection for handling and stacking. Its simple, yet durable construction makes assembly easier and faster than other packaging methods.

Qwik-Crate has an excellent surface finish that can be used for point-of-purchase displays. Available with Kraft bottoms and white tops, Qwik-Crate can also be treated with protective coatings. Color printing is available for product identification and point-of-sale merchandising.

Specifications

Qwik-Crate sizes are based on the following dimensions:

- **Leg height** – Available from 1-5 inches (25-127 mm)
- **Base width** – Available from 3-10 inches (76-254 mm)
- **Caliper** – Available from .060-.160 (1.5-4 mm)
- **Length** – Available from 3-50 feet (1-15 m)
